

The objectives and priorities of the Vardar Planning Region, including the Vision, have been developed on the basis of strategic analysis and environmental scanning of the situation in the region.

1. Increase of the competitiveness of the region and provision of qualified and educated labor force in accordance with the needs of the economy
2. Development of transit, sustainable and cultural tourism
3. Improvement of the infrastructure and the energy potentials in the region
4. Provision of opportunities for improvement of the environment in the region
5. Development of sustainable regional agriculture, including sustainable rural development

Development of effective educational system based on values, easy-accessible and will prepare the beneficiaries for the challenges later in life.
